**HEADS MINERS'  
UNION CHARGED  
WITH CONTEMPT****Proceedings Started By  
U. S. Attorneys at  
Indianapolis.****BULLETIN.**

By Associated Press Leased Wire  
Indianapolis, Ind., Dec. 4.—Judge A. B. Anderson, of the United States district court, has summoned the federal grand jury to appear here next Monday morning at 10 o'clock to take up investigation of alleged violations of the Lever act and the criminal provisions of the anti-trust acts by the coal operators.

This information was given out today in a statement by L. E. Slack, United States district attorney and Dan W. Shims, special assistant attorney general in charge of the proceedings in the coal strike.

By Associated Press Leased Wire  
Indianapolis, Ind., Dec. 4.—Headed by Acting President John L. Lewis, six general and district officials of the United Mine Workers of America appeared at the federal building shortly before noon today and surrendered to the United States Marshal Mark Storen, who held capsules for their arrest on information filed yesterday, charging 84 officers of the organization with contempt of court.

The men provided bonds of \$10,000 each, which were furnished by a surety company. The hearing will be held at 10 o'clock next Tuesday morning.

By Associated Press Leased Wire  
Indianapolis, Ind., Dec. 4.—Machinery of the Department of Justice was put in motion today to bring about appearance in federal court here at an early date, of all the 84 international and district officials of the United Mine Workers of America against whom information charging criminal contempt of court was filed yesterday with United States District Judge A. B. Anderson. The miners are charged with violating the injunction against furtherance of the strike of coal miners of the country.

With the appearance this morning of John L. Lewis, acting president and other officials of the organization attached to international headquarters, here to furnish bond, fixed at \$10,000 by Judge Anderson, the first steps in the case against the defendants in Indiana were completed. The capsules served on these officials are returnable next Tuesday morning at 10 o'clock, when Judge Anderson will hear "the first arguments in the contempt proceedings."

**To Push Prosecutions.**

Officials of the union who reside outside of Indiana will be brought before Judge Anderson as soon as the necessary papers can be mailed to the various districts. Dan W. Shims, special United States district attorney in charge of the injunction proceedings in Indiana, declared yesterday that the prosecutions will be pushed with all the force at the hands of the government and that the action will be carried to every officer of every local participating in the strike.

The first specific case against local officers will charge two Clinton, Ind., locals with violation of the injunction through payment, by subterfuge of strike benefits.

**Specific Charges.**

The general charges against the miners' leaders allege that since the issuance of the injunction against encouragement of the strike or action to limit the production of coal, every official has violated the injunction by passively consenting that the strike be continued and by maintaining an attitude toward the membership and by statements to "representatives of The Associated Press and newspapers that membership will not go back to work but will remain on strike." The attitude of the government throughout its recital of evidence against the miners, is that by merely refraining from returning to work after the strike order had been rescinded by the union leaders and the injunction had been issued, the men are guilty of violating the court's mandate.

**Order Was Not Proper.**

An important charge and one on which the government is relying to improve its case, is that the officials when issuing their notice that the strike order had been rescinded, mimeographed the notice on blank paper and cut out from the copies an imprint of the official seal of the union. It is added that upon receipt of the notice the unions throughout the country took due position, and "so stated in the date press and by word of mouth that the withdrawal and cancellation notice was defective, invalid and without authority" because it did not bear this seal and because the signatures of officials were printed and not signed by hand.

President Lewis is specially cited in one charge with refusing to notify the members that the withdrawal order was issued and communicated in good faith and that its purpose really was to cancel the strike. The charge adds that Mr. Lewis still refuses to send out such assurance.

**SHIP'S CREW IS RESCUED**

By Associated Press Leased Wire  
Berlin, Dec. 4.—The crew of the American freight steamer Kerwood, which struck a mine off Terschelling in the North Sea, while on a voyage from New York to Hamburg, has been rescued by a German fishing boat and taken to Emden, it was announced here today. The Spanish consul at Hamburg has arranged for the return of the crew to the United States.

**CUT PASSENGER  
TRAIN SERVICE  
AGAIN MONDAY****One-Third Reduction in  
Train Miles Ordered  
Today.**

By Associated Press Leased Wire  
Chicago, Ill., Dec. 4.—All railroad passenger service on north, west and northwest line running out of Chicago will be cut one-third beginning next Monday under an order issued today by T. S. Eustis, chairman of passenger systems on these roads.

A similar order will be issued in a few days applying to eastern and southern roads which probably will be effective next Tuesday.

The order directed that the saving be made in "train miles." All parlor, club, lounge and observation sleeping car services were ordered discontinued and no special trains are to be run for either business or pleasure interests.

The order instructed the federal managers of the various roads to eliminate "those trains which can be spared at the least inconvenience to the traveling public." They were told also "not to hesitate to lengthen or change the schedules of remaining trains to permit of carrying more cars or doing additional work."

"There must be no second sections of regular trains," said the order. "Business must be cared for by adding extra cars but not beyond the prescribed limit, and by lengthening the schedules of existing trains. When capacity of regular trains is reached, overflow of travel will of necessity wait over or seek carriage elsewhere."

There will be no immediate reduction in the number of exclusive mail and express trains but additional trains or extra sections to take care of the Christmas rush were forbidden.

**ROUND UP CROOKS  
IN DETROIT AND  
TOLEDO LAST EVE****Federal Operatives Net  
Many Yeggs in Simul-  
taneous Raids.**

By Associated Press Leased Wire  
Detroit, Mich., Dec. 4.—Thirty-five men were held on charges of violation of the United States criminal code today after examination of more than 100 arrested last night in a roundup of near-beer saloons and other places suspected of harboring yeggs and pickpockets. The raids were conducted by federal agents, police, postoffice inspectors and a score of private detectives.

A private bank was among the places raided and its manager, G. Kolowick, is being held on a charge of receiving and holding property stolen from the government.

Among the prisoners held, the police say, are some of the best known "safe men" and "stick up men" in the business.

**NAB 130 IN TOLEDO.**

By Associated Press Leased Wire  
Toledo, Ohio, Dec. 4.—Federal raids that started here yesterday and resulted in the detention of more than 130 men, one of them a city councilman, were to be continued today by officers congregated here from various parts of the country.

The raid was spectacular and developed the fact, the officers say, that Toledo is headquarters for some of the most prominent safe blowers, burglars and confidence men in the country.

It was said that a number of police officials are under investigation and the safety deposit in banks have been attached and will be inspected for evidence.

Four of the men arrested were hurried out of town and jailed, the officers taking no chances on a jail delivery here.

So secretly were arrangements for the invasion of the federal officers negotiated that not even the chief of police was cognizant of it.

**HAVE YOU NOTICED IT?**

By Associated Press Leased Wire  
Chicago, Ill., Dec. 4.—The Institute of American Meat Packers in a statement issued here today declares that the average weekly wholesale price of dressed beef for the entire country decreased 24.2 per cent between May 3 and Nov. 22 this year.

**AUTO FACTORY TO CLOSE.**

Bert Frazz and brother went to Kenosha, Wis., early this morning to drive back two new Nash cars. Mr. Frazz has been notified that the Nash plant is among other Kenosha industries that will be forced to close down on account of the scarcity of coal.

**CORRECTION.**

The credit of serving the banquet at the Y. M. C. A. Tuesday belongs to the Y. M. C. A. Auxiliary and not to the ladies of the Presbyterian church, as an article in Wednesday's publication had it.

**THE WEATHER****THURSDAY DEC. 4, 1919.**

By Associated Press Leased Wire

Chicago and Vicinity.—Probably light snow tonight and Friday; warmer tonight; lowest temperature about 28 degrees above zero; southerly winds tonight, probably shifting to northwest and north Friday.

Probably rain or snow tonight and Friday; warmer tonight, somewhat colder in the northwest portion Friday.

**LOCAL TEMPERATURE**

A minimum temperature of eight degrees above zero was recorded by the government thermometer during the 24 hours ending at 6 o'clock last evening, with a maximum of 22 above.

**EVIDENCE AGAINST U.  
S. AGENT CREATED BY  
SHOOTING MEX. PEONS****Ambassador Fletcher Gives  
Senate Body Some In-  
teresting Facts**

By Associated Press Leased Wire  
Washington, D. C., Dec. 4.—Private advices from Mexico City today said the Carranza's government reply to the last American note in the Jenkins case was in course of preparation and suggested that possibly the Mexican government would propose a commission of inquiry under one of the sections of what is known as the old treaty of Guadalupe.

By Associated Press Leased Wire  
Washington, D. C., Dec. 4.—Secretary Lansing will be called before the senate foreign relations committee before action is taken on the resolution of Senator Fall, republican, New Mexico, requesting President Wilson to sever diplomatic relations with Mexico. The committee hopes to have the secretary before it later today.

Decision to call Mr. Lansing for a discussion of the Mexican question was reached by the committee after a two hour session behind closed doors.

**Opinions Differ.**

Henry P. Fletcher, American ambassador to Mexico, was before the committee today to give his views on the Mexican situation. The discussion was said to have revealed considerable differences of opinion among committee members regarding the best method of protecting American interests in the southern republic.

**Fletcher Tells of Affairs.**

Ambassador Fletcher, it was understood, did not directly endorse either the Fall resolution or the Hitchcock substitute. He answered many questions about the state department's course in recent negotiations with Mexico, in which he has had an active part.

Virtually all of these questions had to do with the case of William O. Jenkins, the American consular agent, under arrest at Puebla. He went into this subject fully, and it was said that many of the questions to be asked Secretary Lansing would be of similar nature.

Administration senators called attention to the possible effect of adoption of the Fall resolution on efforts of the government to secure Jenkins' release and are said to have argued that a severance of diplomatic relations might complicate this and other questions which are now the subject of discussion through diplomatic channels.

No reply from the Mexican government to the renewed request of the United States that Jenkins be released has been received at the State Department and officials said there was no information as to when it might come. Administration leaders made no effort to conceal the impatience with which the Mexican reply is awaited.

Ambassador Fletcher gave the committee a graphic account of the method used by the Mexican authorities to secure evidence which they declare refutes Jenkins' statement that he was or seen at a certain time and place in the company of the bandits prior to his kidnapping.

Mr. Fletcher said the Mexicans gathered ten peons in that neighborhood and said to them: "Jenkins was here at that time, wasn't he?"

The peons said he was not. One of the peons was taken outside the building and a minute later those remaining heard a rifle shot.

The other nine were asked the same question and again they gave a negative answer.

Another peon was taken outside and another shot was heard.

The remaining eight again were asked the question, but their answer was unchanged. Another was taken from the room and a third shot was heard.

When the question was repeated to the seven remaining, they admitted Jenkins was at the place at the time indicated.

**EXTRA!  
JAIL DELIVERY AT  
MORRISON THIS P. M.**

Morrison, Ill., Dec. 4.—Four prisoners made their escape from the White-stone county jail this afternoon shortly after 1 o'clock and posses are now out searching for the four prisoners who escaped. They are:

BEN BURDIN, sent up from Sterling for burglary.

FRANK EDWARDS, held for robbery of Burchell store at Erie.

WILLIAM CAMERON, sent up from Fulton for burglary.

HARRY McCAMERON, sent up from Sterling for forgery.

They made their escape by calling Sheriff Berry into the cell room, overpowering him and injuring him badly and taking his keys away from him.

**NO CONFIRMATION**

By Associated Press Leased Wire  
Juarez, Mex., Dec. 4.—Mexican officials here early today are without confirmation of the reported capture of Francisco Villa yesterday by members of his band who are holding him for ransom. Both civil and military officials are striving for confirmation through every available channel.

The report came to P. W. Caballero, superintendent of the National railways of Mexico for Chihuahua, from a telegraph operator at Parral.

**ATTENDED FUNERAL.**

Frank L. Burns returned to Dixon yesterday after attending the funeral of a cousin, Sister Agnes DeSales, of St. Mary's in the Woods, at Terre Haute, Ind.

**SAYS OFFICIAL  
SUGGESTED KIDS  
GATHER R. R. COAL****Mrs. John Zinke De-  
fends Husband in Let-  
ter to the Telegraph**

The Telegraph is today in receipt of the following communication from Mrs. John Zinke, of whom your paper published an article in last night's issue. I wish to say that a great injustice was done my husband. My husband, last winter, had a very hard case of the flu from the effects of which he has not yet recovered. He has been sick and in October developed a bad case of appendicitis and underwent an operation and was confined in the hospital at Rochelle two weeks. He came from the hospital in a weakened condition, wholly unfit for hard manual labor. He went trapping for a week and made about \$5 per day. Since that time he has worked for B. F. Zarger and Robert Teachout. He is now suffering from a weak back and most of the time is hardly able to arise from a chair. Previous to this sickness my husband had not missed a day from work in three years.

Editor Telegraph—As the wife of John Zinke, of whom your paper published an article in last night's issue I wish to say that a great injustice was done my husband. My husband, last winter, had a very hard case of the flu from the effects of which he has not yet recovered. He has been sick and in October developed a bad case of appendicitis and underwent an operation and was confined in the hospital at Rochelle two weeks. He came from the hospital in a weakened condition, wholly unfit for hard manual labor. He went trapping for a week and made about \$5 per day. Since that time he has worked for B. F. Zarger and Robert Teachout. He is now suffering from a weak back and most of the time is hardly able to arise from a chair. Previous to this sickness my husband had not missed a day from work in three years.

It is true that my children did pick up coal from the railroad track. This was done at the suggestion of a public official who refused to assist me with a little coal, although I begged him to do so. My husband has bought two half-ton lots of coal this fall, paying \$5.15 for the last half ton.

My husband, from the time of my marriage, has been an honest, industrious man, and we have paid all of our bills, although possessed of a large family. I know that if he were able we would do any kind of work to properly provide for his family. If the authorities would assist us instead of trying to give us a bad name and prejudice one people against us it would be better for all persons concerned.

Signed—  
CARRIE ZINKE.

**Emma and Alex Due  
to Receive a Surprise**

By Associated Press Leased Wire  
New York, Dec. 4.—Intimations that a surprise is in store for Emma Goldman and Alexander Berkman when they are surrendered at Ellis Island tomorrow for deportation were given today by Byron H. Uhl, acting commissioner of immigration at the island.

"I understand the department has something up its sleeve," he said, "but I don't know just what it is."

Uhl disagreed with the contention of Harry Weinberger, attorney for the two anarchists, that they must be deported to Soviet Russia and that such action cannot be taken until the United States recognizes the bolsheviks.

"The law provides for deportations to the countries whence the aliens came," he said. "They can be deported to Russia regardless of changes in government."

**TO BROOK NO DELAY**

By Associated Press Leased Wire  
Washington, Dec. 4.—Alexander Berkman and Emma Goldman, now awaiting deportation in New York, will be sent to Russia, at the earliest moment possible, Anthony Caminetti, commissioner of immigration, declared today despite the claim of their attorney that the United States cannot deport aliens to Russia without recognizing the Soviet government.

**O. E. S. White Shrine  
is Organized Here**

Organization of a White Shrine of Jerusalem was consummated Wednesday evening in a meeting at Masonic hall by the Eastern Star organizations of Dixon and vicinity. One hundred and nine were present at this meeting and one hundred forty-two became charter members. Mrs. Cora O. Leake, of Dixon, was chosen Worthy High Priestess, Paul J. McAllister, of Rock Falls, was elected Watchman of the Shepherd, Mrs. Drueella Banker, of Franklin Grove, Noble Prophetess. The name given to this Shrine is "Corinthian." Members of the Eastern Star Orders of Rock Falls, Ashton, Rochelle, Franklin Grove, Amboy and Chicago were present.

**Garrett Kinney to  
Handle G. O. P. Funds**

By Associated Press Leased Wire  
Chicago, Ill., Dec. 4.—Garrett Kinney, of Peoria, has been appointed state finance chairman of the republican party. It became known here today. Mr. Kinney will open headquarters in Chicago immediately. It was announced by Frank L. Smith, state chairman. Downstate headquarters will be located at Peoria.

**MYSTIC'S BAZAAR  
HAS BEEN POSTPONED**

Because of the coal shortage the Mystic Workers bazaar has been postponed until the situation has become better. All those holding season tickets should save them until the bazaar is given, when they will be honored.

**STATE HAD BIRTHDAY.**

The State of Illinois yesterday celebrated its birthday by wondering how it was going to keep warm. In some cities minor celebrations were held and the schools in many places had exercises in commemoration of the event.

Dr. F. E. Morris is in Chicago today on business.

**NEWTON MFG. CO. MAY  
MOVE ITS FACTORY TO  
AURORA BY JANUARY 1****Officials Admit Negotia-  
tions Toward That End  
Are Under Way.**

The Aurora Beacon News of Wednesday evening has the following story concerning the possible removal of the Newton Manufacturing Co., from Dixon to that city:

Aurora may get a new manufacturing concern which, it is reported, will move to this city from Dixon, Ill., between now and the first of the year. The company is the Newton Manufacturing company, a corporation capitalized at \$50,000.

The Newton company makes toys for the holidays and novelty advertising. Mr. Newton is vice president also of the Newton Manufacturing company at Newton, Iowa. It is the plan of the company to have all its goods moved here by or before the first of the year and it will occupy one of the two buildings which the Aurora Commercial club has engaged for its use.

Many Girls Employed.  
This company employs many girls, who, it is said, are paid good wages. The company employs about 75 people normally. Business has been growing so fast that it is forced to seek a bigger factory building where more floor space can be had. "We have more orders now than we can fill," a member of the firm told an official of the commercial club. Several other manufacturing concerns are knocking at Aurora's door and if suitable arrangements can be made they also will be brought here.

Inquiry by The Telegraph at the offices of the Newton Manufacturing Co., in its factory in the north college building, went to the effect that while negotiations looking toward the removal of the plant to Aurora had been under way for some time, no deal had been completed.

**WARN HUNS THAT  
TREATY DELAY IS  
NOTHING TO THEM****Sec. Polk at Paris Tells  
German Delegate Ger-  
mans Must Pay.**

By Associated Press Leased Wire  
Paris, Dec. 4.—The Supreme Council spent most of today's session discussing the attitude of Germany towards the signing of the protocol putting the peace treaty into effect. Germany's representatives have declared they could not sign it in its present form, including provision for reparation for the German warships sunk at Scapa Flow, and with other features objectionable to them. The form of a note to Germany on this question was considered by the council but no final decision was reached.

It is anticipated, in this connection that the reply to the German note regarding the Scapa Flow questions will contain strong representations as to the consequences of further resistance by Germany.

The council today decided to give the small powers which possess sea coasts a few of the smaller German torpedo boats.

**POLK WARNS HUNS**

By Associated Press Leased Wire  
Paris, Dec. 4.—(Havas).—Frank L. Polk, head of the United States delegation to the peace conference, summoned Kurt von Lersner, chief of the German representatives at Versailles, on Monday and told him that Germany should not interpret as being in her favor any delay that might be encountered in ratifying the Versailles treaty at Washington, according to newspapers here.

"If there can be in the United States several ways of understanding the treaty," Mr. Polk is quoted as telling Lersner "there are no two ways of understanding the obligations incumbent upon Germany nor the affection binding the United States and her allies."

Von Lersner still denies responsibility of the Berlin government for the sinking of the interned German warships at Scapa Flow and demands that the allied claims for indemnity for the ships be referred to The Hague for arbitration before he will sign the protocol.

Advices received from London state that papers recovered from the German warship Emden, which has been floated at Scapa Flow, show that Rear Admiral Adolf von Trotha, head of the German admiralty, wrote a letter to Admiral von Reuter on May 9, 1918, telling the latter, who was in command of the interned German ships that the surrender of the ships to "the enemy" was of the question. "Directions from Admiral von Reuter to his officers giving directions as to the scuttling of the ships also were found in the Emden's safe. These documents probably will have a bearing on future development of the situation which is delaying the final step in putting the peace treaty into effect.

**Sugar Grinding Now  
Threatened By Strike**

By Associated Press Leased Wire  
San Juan, Porto Rico, Wednesday, Dec. 3.—All trains operated by the American railroad were stopped today by a strike involving trainmen, shopmen and stationmen who demand wage increases up to 50 per cent. Sugar grinding, which will begin this week, will be seriously interrupted unless a settlement is reached.

**A Proclamation.**

Through an order issued by the State Public Utilities Commission, the hours of business throughout Illinois are definitely established. This order is published in detail in three newspapers in Lee County. You are therefore notified to comply strictly with the orders so issued. Any agreements heretofore arrived at as between the merchants or those engaged in any particular lines of business are now null and void, where they in any way conflict with the above mentioned order. It is to be sincerely hoped that any measures other than the issuance of this proclamation will not become necessary. If you are a good citizen, with the interests of your fellow citizens, as well as your safety, at heart, you will comply strictly with this injunction. Also, if you are an equally good citizen, you will refuse to patronize or in any way encourage any business man violating this order. Careful peruse this order, so that it may not be necessary to have your attention called to its requirements.

In addition it is well to think of anything that can be done to relieve the situation locally. It has been suggested to me that some tract or tracts of timber within a reasonable distance could be secured. The preparation of such timber would mean labor for some number of men and the fuel so prepared would help materially, and while not so convenient it can be remembered that our older citizens had no other fuel than wood.

While the orders for conservation may seem arbitrary to some, only stern necessity has caused their issuance. That everything will work out all right is certain if all will help. We all know the desirability if not the necessity of the continued operation of our industries, for as many days per week as possible. By observing rulings laid down and by taking every possible measure to save fuel we will give evidence of our good citizenship.

Let us all be as unselfish and active to help as we can in this time of inconvenience, before actual suffering overtakes us.

I hope that all societies, lodges, churches, and patriotic organizations will curtail as far as possible their consumption of fuel, and finally, when we have arrived at a condition of safety and prosperity let us take heed of this experience and guard against its recurrence.

Signed,  
MARK D. SMITH  
Mayor of the City of Dixon.

The order of the Utilities Commission, referred to in Mayor Smith's proclamation, is published in full elsewhere in this issue of the Telegraph. Briefly it provides:

All un-essential interior and exterior illumination, including signs, display lights and show windows, shall be entirely stopped.

Work shops, industrial establishments, wholesale businesses, mercantile establishments and storage warehouses, shall receive power and lighting service between the hours of 9 a. m. and 3:30 p. m.

Retail establishments of all kinds in the downtown district shall receive service between the hours of 11 a. m. and 5:30 p. m. Stores in the outlying districts shall receive service from 10 a. m. to 6 p. m. and on Saturday night until 9 p. m.

Offices, banks, etc., from 9 a. m. until 3:30 p. m.

Newspapers are required to exercise greatest possible economy but are not restricted as to time.

Theaters, vaudeville houses, etc., shall be restricted to six performances per week, five in the evening and one afternoon show. Moving picture houses are not placed under restrictions, but are ordered to effect all possible economies in the use of light and heat.

Drug stores, meat markets, groceries, bread makers, hotels and restaurants are not restricted as to hours of operation, but are required to exercise all possible economy.

**To Use Dirigibles  
on Mexican Border**

By Associated Press Leased Wire  
Washington, D. C., Dec. 4.—The first army airship station on the border will be organized immediately at El Paso, Tex., by the eighth balloon company under Lieut. Byron T. Hurt. As soon as the hanger now under construction is completed one of the twin engine airships ships recently acquired by the army will be placed in service and extensive experiments in border patrol work conducted.

"The results of the work at this station will be watched with very keen interest," said the announcement today by the army air service, "as the establishment of additional stations on the border is dependent upon the success of the initial station. This is the first opportunity the army has had for operating dirigible balloons over the country which approximates the terrain that will be found in Mexico."

**RED CROSS GAVE AID.**

Thomas Bergens and family, who came to Dixon yesterday from Billings, Mont., on their way to Rockford, were stranded here without funds to proceed further, were cared for by the Dixon chapter of the Red Cross. After applying at several sources, the chapter advanced the funds necessary for railroad transportation to Rockford for Bergens, his wife and two small children.

**LEE CO. COLT EXHIBITED.**

T. F. McKune, of Amboy, R. F. D. 5, has on exhibition at the International Stock Show in Chicago, a fine Percheron colt, shipped from his farm in this county, which is one of the largest colts exhibited since the inception of the stock show.

**TO COUNTY INFIRMARY.**

Mrs. Abbie Newcombe, 318 Monroe avenue, was taken from her home to the county home yesterday afternoon in the Staples-Moyer-Schumm ambulance.

**STATE ORDERS  
SHORTER HOURS  
ALL BUSINESS****Dixon Institutions Will  
Comply with New  
Regulations.****BULLETIN.**

By Associated Press Leased Wire  
Springfield, Ill., Dec. 4.—Strict limitations upon use of light and power in order to conserve the dwindling coal supply were authorized today by the state utilities commission.

The commission's order is similar to one issued at Chicago yesterday. It applies to the downstate utilities companies under control of the commission and becomes effective today.

The order restricts service to all stores, shops, banks, office buildings, pool rooms, cigar stores, soft drink parlors and other places of business to the hours of 9 a. m. to 4 p. m. Exceptions are made in the case of drug stores, groceries, physicians' offices, restaurants, hotels, bakeries and hospitals but these places are urged to use all possible economy. On Saturday night companies may furnish service until 9 p. m.

Theaters, vaudeville houses and other places of amusement, except motion picture houses, are restricted to six performances a week, one in the afternoon and five in the evening.

Wholesale houses, storage warehouses, workshops and industrial establishments are to receive service between 9 a. m. and 3:30 p. m.

Transportation schedules of local and suburban lines are ordered reduced to a minimum.

A temperature of 65 degrees is ordered for all establishments.

Where a business requires continuous operation a reduction is to be made by refusing service two days a week.

Mayors of all cities are directed to issue proclamations urging consumers to practice strict economy in the use of coal.

Dixon's factories and mercantile establishments today found themselves under the direction of an order of the Illinois Public Utilities Commission, promulgated in Chicago yesterday, and designed to conserve fuel in the present crisis brought about by the miners' strike.

While the order is directed to the utilities companies of the state, it calls upon every citizen to carry out its terms, and expressly urges upon domestic consumers of gas and electricity the importance of reducing their consumption of the same to the lowest possible point, lest there be none for their necessities within a very short time.

The order provides for business hours as follows:

Factories, etc., 9 a. m. to 3:30 p. m.

Retail stores, (exclusive of meat markets, drug stores, bread makers, hotels and restaurants, which are not restricted as to hours), 11 a. m. until 5:30 p. m. Stores in outlying districts may be open from 10 a. m. until 6 p. m. and on Saturday night until 9 p. m.

## U. S. SENATE WILL INVESTIGATE FORD ELECTION CHARGES

Resolution Directing Probe  
Was Passed By Senate  
Yesterday.

*By Associated Press Leased Wire*  
Washington, Dec. 4.—Investigation of the Ford-Newberry senatorial election contest from Michigan was authorized yesterday by the senate, which adopted a resolution by Senator Pomerene, democrat, Ohio, providing for the inquiry.

No roll call was necessary and there was less than a minute's discussion in bringing out that the measure previously had been approved by the privilege and elections committee, which will conduct the inquiry.

Hearings under the resolution are not expected to start until after the holidays and they may be confined to the election, since the alleged frauds during the primaries now are being dealt with by the courts.

The Pomerene resolution was favorably reported by the senate expenditures committee and unanimous consent was given for its immediate consideration. The resolution gives the privilege and elections committee broad powers to take evidence and to preserve ballots and other documents.

It specifically directs investigation of charges and counter charges of excess and illegal expenditures of money and unlawful practices in connection with the said election of a senator from the state of Michigan.

Senator Dillingham, republican, Vermont, as chairman of the privilege and elections committee, will have charge of the investigation.

Senator Newberry was not in the senate when the Pomerene resolution was adopted.

## Former Chancellor Says Germany Should Stand By Her Promise

*By Associated Press Leased Wire*  
Paris, Dec. 4.—Germany should stand by her word and carry out the terms of the Versailles treaty, says Philip Scheidemann, former German chancellor, in an interview published by the Echo De Paris.

Two questions, the surrender of prisoners of war and the turning over of trial of German officers, and then accused of crimes during the war, made for strained relations at present, he says.

"The first is not irreparable and will not influence the future," he continues, "but the one concerning the officers and men is particularly difficult. It will be necessary for us to arrest them ourselves and then deliver them. This is a hateful thought and nothing could be more repugnant but still we have signed the treaty."

## To Ask Investigation of Illinois' Prisons

*By Associated Press Leased Wire*  
Chicago, Dec. 4.—Lieut. Commander Thomas Mott Osborne, former chairman of the New York commission on prison reform and now in charge of the navy prison at Portsmouth, N. H., went east today with the announced intention of writing a letter to Gov. Frank O. Lowden asking appointment of a commission to investigate Illinois prisons. At a club luncheon yesterday where he was a speaker, Lieut. Commander Osborne charged that Illinois prisons are cruel and brutal and are responsible for the Chicago crime wave. The Joliet prison he described as "infamous."

John Whitman, state superintendent of prisons, also a club guest, retorted that "Joliet is not responsible for conditions in Chicago."

"The state of Illinois is doing its duty and in a conservative way," he said, and added that Illinois gradually is getting away from punishment in the handling of prisoners.

## Monthly Report of the Palmyra Co-Operative Cow-Testing Association

By E. G. THIEM, Tester

Much experimenting has been done and many theories have been advanced to explain the variations that commonly occur in the percentage of fat in milk from individual cows and in milk from the different breeds of cattle. But no one, as yet, has given unimpeachable proof nor a wholly satisfactory explanation to show why there is so much fluctuation in butter fat tests. We know from observation, however, that there is a close relationship between the percentage fat composition of whole milk and:

1. The breed and individuality of the cow.
2. The age of the cow.
3. To some extent, the condition of the cow before calving.
4. In part to the variety, amount, and quality of feed received.
5. The regularity of feeding and milking.
6. The amount of milk produced.
7. The degree of advancement in the lactation period.

We know that all these and perhaps other factors not mentioned affect the test but just how in the process of assimilation or metabolism of the feed consumed, the butter fat reaches the milk-secreting glands of the udder in such variant amounts no one can say. That part of the problem undoubtedly is insoluble. But to answer some of the questions that have been asked by members I will try to show from observations made in the Palmyra association and elsewhere how the percentage of fat varies in milk and when these variations are most likely to occur.

1. Every one, of course, understands that the breed of the cow and her own individuality account for the variation in the richness of different cows' milk. Thus, Mr. Shawger has a little grade Guernsey cow named Margaret that has an average test for a year of over 5% whereas Mr. Haven has a grade Holstein cow called Jane that seldom tests more than 2.5%. This is a matter of inheritance. Charles Cole, himself, couldn't make Jane test 5% nor could we influence Margaret to test 2.5%. Guernseys and Jerseys have always tested high while milk from Holsteins ordinarily tests lower.

2. The age of the cow affects the percentage of fat in the milk to a certain extent. Eckles says that the richness of milk remains practically constant from year to year except after cow is 6 years old there is a slow, gradual decline with advancing years. Jane in the above illustration is an old cow and this in part accounts for her unusually low test. I have heard dairymen say that a heifer freshening for the first time will test lower than an older cow. This assertion is false. On the average dairy farm the heifers, it is true, usually test low because in most cases they are thin and poor in flesh when they freshen. This brings us to our third point.

3. The condition of the cow before

freshening has much to do with her test especially in the fore part of the lactation period. One member had a number of heifers that calved while in a poor state of condition. During the first few weeks after calving the percentage of fat in their milk averaged between 2 and 3%, but after these same heifers had been fed a good ration for a while, the amount of fat in milk gradually increased until a normal test was reached.

At the Missouri Station, Eckles fed a mature Jersey cow so as to be excessively fat at calving time and thereafter gave her food sufficient only for a dry cow. Beginning with 21 lbs. of milk daily she was giving 15.5 lbs. at the end of 30 days of such poor feeding, during which time she lost 115 lbs. in weight. Eckles estimates that the 43 lbs. of fat and 53 lbs. of other solids yielded in the milk during this period must have been drawn from her body tissues. During the period her milk averaged 6.1% fat. Within 48 hours after her feed was later increased it declined about 1.4%.

In another trial, Eckles fed one heifer liberally on rich rations from birth until she calved, while another was kept poor and thin. After calving the milk of the well fed heifer tested over 4% fat and that of the thin cow about 3%. Several weeks after calving the fat heifer declined in weight the fat percentage remaining constant. When at length her weight became stationary the percentage of fat declined somewhat. The thin heifer did not lose in weight after calving and the fat in her milk did not decrease. In the end the milk of the two heifers was about equally rich. This emphasizes the necessity for feeding the heifer at least two months prior to freshening with a good grain ration such as:

- 200 lbs. corn.
- 100 lbs. oats.
- 100 lbs. bran.
- 100 lbs. oil meal.

4. The amount, variety and quality of the feed which the cow consumes can not greatly affect her test for any considerable length of time. In other words, nothing that we could feed a Holstein cow whose average test for a year had been 3.5% would make her test average 1.5% the following year. But it is possible to feed a cow so poorly and thus keep her in a low state of condition that the richness of her milk will be impaired to a measurable extent. On the other hand, it certainly is true that a well balanced and reasonable rich ration will increase the percentage of fat in milk over a poor, unbalanced ration at least to a slight degree. There may be exceptions to this assertion, but results of data collected in the Palmyra association at least indicate this relationship.

Thus during the months of last January, February and March approximately 500 cows on test averaged a test of 3.6% whereas in the following months of April, May, June and July the aver-

age test of these same herds had decreased to approximately 3.4%. The difference in the variety and quality of feed which the cows received in these two periods must have had something to do with this change. In the same way, it has been repeatedly noticed this fall that invariably the average test of a herd increased from two to seven tenths per cent following the feeding of a high concentrate such as cottonseed or oil meal. In Mr. Downing's herd the test jumped from 3.1% to 3.8% following the addition of a liberal allowance of cottonseed and oil meal in the ration. But any great sudden change is usually short lived—as in this case—the herd dropped back to a 3.5% average after a few weeks had elapsed.

5. The regularity of feeding and milking has much to do with the average test of a herd from one milking to another although over a long period of time this is not true. For example if a herd is milked early in the evening in which case the flow is lower than the morning milking, the evening milk generally tests higher than the morning's milk.

Also when a cow is being milked four times a day, as in case of a 7 day test, the noon milking which invariably is a light one, tests much higher than the heavier evening or morning milking. Any irregularity in time of feeding or kind of feed fed generally affects the test from one milking to another. If a cow that has been regularly fed on a given ration is suddenly deprived for one feed of that ration or is given an entire change of feed, the subsequent milking will generally test higher. A current illustration of this phenomenon occurred recently. A cow on 7 day test that had been receiving a certain high

protein ration four times daily was producing milk that averaged 4.2% in test. When this high protein ration was withheld for one feed and instead a light ration of bran and oats fed, the following milking jumped to a test of 5.0%. This process, when successful, is called "shooting the test."

6. As has been shown before, the amount of milk produced is often directly related to its richness. Everyone has heard the popular story that a good way to test milk is to see whether it is Jersey or Holstein is to place a half dollar in the bottom of a pail and pour in the cow's milk. If the half dollar isn't covered its from a Jersey, and if you can see the coin in the bottom of the pail thru the milk, its from a Holstein. It isn't always true that the light milker tests high and the heavy milker low but such is often the case. In passing, it may be said that some dairymen over-estimate the value of a high test. Always keep in mind that it is more important to get a heavy flow of milk than it is a high test. The cow that milks 40 lbs. per day and tests 3% is more profitable than the cow that milks 30 lbs. per day and tests 4.5%.

7. The degree of advancement in the lactation generally affects the test. Broadly speaking, the test of a cow's milk varies inversely with the decrease in flow as the milking period advances. This increase in test is least noticeable in the first 6 months of lactation, but thereafter the percentage of fat in the milk rapidly increases. Out of ten cows selected at random the test after the seventh month of lactation increased on the average .86% per cow. Three of these cows showed little or no increase in test and one actually tested lower in her eighth month of lactation than

previously. But seven of these cows ranged from 2% up to 2.2% higher in test.

The question concerning the variation of the percentage of fat in milk is a vital one for on it is based the market value of milk, butterfat records of all kinds, and to some extent the value of the individual cow. If for no other

reason than this—that every dairymen know the value of each animal in the herd as a producer of butterfat—the cow testing association furnishing this information, as it does, will continue to hold an important place in the field of dairying.

Following are the higher records made for the month of October in the association:

## Symbols of Service

FROM your seat in the train as you journey through the Middle West, you see at almost every station you pass the great, white storage tanks of the Standard Oil Company (Indiana). These bulk stations are maintained to insure prompt delivery of petroleum products to the people in that community. To them these tanks are Symbols of Service.

As you motor over the highways and byways of the countryside, you pass the dark green tank wagons of the Standard Oil Company (Indiana) busy delivering petroleum products from the bulk stations to the farmer's tank. To the farmer these are Symbols of Service.

At convenient points in city, town and hamlet you find attractive service stations, beautifying ugly corners. These are maintained for your convenience and to you they are Symbols of Service.

You stop at a railroad crossing to let a train pass. In it are a number of tank cars, hurrying forth from the Standard Oil Company (Indiana) refineries to replenish the stocks at bulk stations. Aside from their usefulness as carriers, these also are Symbols of Service.

The Standard Oil Company (Indiana) is a service organization, and wherever you may see its name or a piece of its equipment, you see a Symbol of the Service it is striving to give in maintaining its position as a public servant doing its full duty.

## "ART IN AMERICANIZATION"

Art Chairman of Thirteenth District Federation of Woman's Clubs Makes Report of Recent All-American Exposition in Chicago.

The following is the report of the Art Chairman of the Thirteenth District Federation of Woman's Clubs on "Art in Americanization":

Some weeks ago when the All-American Exposition was held at the Coliseum in Chicago I spent one day there in an effort to readjust my thoughts and develop enough enthusiasm in Art in Americanization to help along our work for the coming season. I hope my experience may prove a bit helpful, hence this report.

The decorations of the Coliseum made it an art show in itself. Color and design, elements of novelty and interest, combine in making a feast for the eyes. The Victory arch entrance to the court of honor, the painted scenes of America, a panorama of picturesque wonders of our country from New York harbor to the Golden Gate, from the great lakes to the Gulf of Mexico, make an effective background for the quaint little buildings below. Then there were floating flags, and draperies from the arched roof that were a pleasant sight to behold.

A series of forty-two buildings, representing the architecture of the various portions of America and showing reproductions of many buildings of great historic interest—structures of wood, logs, stone, staff, rocks and bricks—including the California garden, old mission church at Santa Fe, Fort Dearborn pioneer cabin, old Downing house at Galena, Ill.; old Jackson home at Portsmouth, N. H.; Betty Ross house at Philadelphia; highhouse at Miami, Fla.; Kentucky courthouse, New Amsterdam house, cliff dwellers' home, old Nantucket mill, western ranch-house, etc.

The wonderful setting opened up the floodgate of thoughts and very rapidly passed in review many facts, well known, but easily forgotten.

The United States has been lagging in gathering up the threads of rich influences that come to the new world from the old. The United States of America is not peopled by men of one blood and ancestry, such as a Slavic, a Gallic or a Teutonic nation, each with its common taste and inherent temperament. But the United States of America, its far-reaching acres suited to the peoples of the plains, the mountains, the forest or the prairie, has offered homes for the European overflow of populations, until the western continent has localities marked distinctly by Scandinavian, Italian, German, French, British and oriental, the far and near east influences.

What is called the native American fathers of literature, the arts and certain standards of ideals, are the great grandchildren of immigrants from the old world who came shortly after the discovery by Columbus. The Spanish settled in Florida, the French had the Mississippi valley, the Pilgrim fathers of England came to Massachusetts, the Swedes to Delaware, the Dutch to New York, English and Irish to Maryland and Virginia, and a century later began the great tides of immigration to the west.

At this exposition were gifts that travelers from the old world brought to their new homes in the United States. Backed by tradition, too many years have passed in which the sons and daughters of Pilgrim Fathers and Virginia settlers, speaking a common tongue, have accepted the monopoly of the name of Americans. There are loyal American sons from every part of the world.

The brightest colored threads in the arts of the United States were brought from the old world. Poets and writers of all degree perfected their education in European travel; painters, sculptors and craftsmen went abroad to the long established technical schools and art galleries to learn the secrets of generations and to get inspiration from the

treasures of the past.

Whatever the United States has accomplished in fine workmanship it has done so under the direction of workmen and artists trained abroad. Even the poets, such as Longfellow, essayists such as Emerson and Hawthorne, musicians such as Edward MacDowell, painters such as John La Farge and John Singer Sargent, whose work is distinctly American in spirit, were trained abroad to a great degree. They recognized the educational forces of inheritance of an old world as stimulating to their powers of expression.

The world war has taught the United States that it has become the homeland of many foreign peoples seeking independence. All these hundreds of thousands have brought culture with them. Their handicrafts in embroidery, weavings, dyes, lace, metal work, carving, porcelain and decorative work have a beauty America must recognize, transplant and foster.

The exhibition of the work of the native-born Americans and citizens of foreign birth or parentage was most artistically housed—the special art exhibits in the north end of the building and the industrial art in other sections. They included handicraft of all kinds, such as have been made by the people of all nations for home and personal adornment. Fine laces, embroideries, weavings, metal work and jewelry, beadwork, enameled and lacquered, wood carving and glass, pottery and decorated porcelain. To comment in detail would be a task of some magnitude as this included the work of twenty-five nationalities.

Of very great interest was the work of the D. A. B. in connection with the New America Shop which they have established technical schools and art established in Stevens Bldg., State St., where they offer for sale the handwork of both native and foreign born women, as well as the work of the children of foreign born parents. It is an interesting place to visit while in the city.

The afternoon and evening programs were given by the different nationalities in costume, folk songs, dances and addresses, spoken in English.

The fact was very much impressed upon us that this great patriotic show stood for something more than a mere hippodrome celebration. Back of the picturesque display and ceremony, the scenic loveliness and the reproductions

of the quaint old buildings, the exhibits and the pageants, the music and the dancing, was the soul of the All-American exposition, the ideal goal toward which the peoples of Americanism are patiently plodding and nearer which they are getting every day.

The slogan of the exposition was, "One Country, One Flag, One Purpose." It taught and preached unswerving loyalty to the Stars and Stripes, unselfish love of country and an appreciation of the blessings that come to all who live beneath the stars and stripes of "Old Glory." Above all its appeal was for greater cohesion between foreign-born and native-born American citizens and to bring about a better understanding between these two elements of our great cosmopolitan population.

In closing I will give you the message prepared for the All-American Exposition by Franklin D. Lane, secretary of the Department of Interior.

Each Brought His Gift.

America is a land of but one people gathered from many countries. Some can for love of money and some for love of freedom. Whatever the lure that brought us each has his gift. Irish lad and Scotch lad, Englishman and Dutchman, Greek and Frenchman, Italian, Spaniard, Slav, Teuton, Norseman, Negro—all have come bearing gifts and have laid them on the altar of America.

All brought their music. Dirge and dance and wassail song, proud march and religious chant. All brought music and their instruments for the making of music, these many children of the harp and lute. All brought their poetry, winged tales of man's passion, folk song and psalm, ballads of heroes and tunes of the sea, lifting scraps caught from sky or fields or mighty dramas that tell of primal struggles of the profound meaning—all brought poetry.

All brought arts, fancies of the mind woven in wood or wool, silk, stone or metals, rugs and baskets, gates of fine design and modeled gardens, houses and walls, pillars, roofs, windows, statues and paintings, all brought their handicraft.

Then, too, each brought some homely thing, some touch of the familiar home, field or forest, kitchen or dress, a favorite tree or fruit, an accustomed flower, a style in cooking or in costume, each brought some homelike familiar thing. And all brought hands with which to work, and all brought minds that could conceive, and all brought hearts filled with hope, stout hearts to drive life's aims, lively minds to direct willing hands.

These were the gifts we brought. Hatred of old time neighbors, national prejudice and ambitions, traditional fears, set standards of living, wasteful intolerance, class rights and the demands of class—these were barred at the gates. At the Altar of America we

have sworn ourselves to a single loyal flag. We have found ourselves to sacrifice and to struggle, to plan and to work for this one land. We have given that we may gain, we have surrendered that we may have victory. We have taken an oath that the world shall have a chance to know how much of good may be gathered from all countries and how solid in its strength, how wise, how fertile in its yield, how lasting and sure is the life of a people who are one, but have come bearing gifts from many countries.

## COMPTON.

Thanksgiving evening about seventy-five friends and neighbors of Mr. and Mrs. William Stainbrook gathered at the old homestead in Viola township and gave them a farewell party as they and their two daughters expect to leave for their new home on Highland Ave., Dixon, soon. The time was most delightfully spent in games, music and dancing until early morning. During the evening Mr. and Mrs. Stainbrook were remembered with a purse of money amounting to twenty-five dollars. A bountiful supper was served and all present did justice to it. Mr. and Mrs. Stainbrook and family wish to express their appreciation for the enjoyment of the evening and the bountiful gift. The many friends join in wishing the family a pleasant sojourn in

their new home. There were eleven present, in spite of the storm.

Mr. and Mrs. Roy Cook and family, Mr. and Mrs. Harvey Cook and children, of this village, and Lee Cook and two daughters, Orla and Leone, of Sterling, enjoyed Thanksgiving dinner with their mother, Mrs. Cynthia Cook. The Misses Orla and Leone remained for an over Sunday visit.

Miss Ruth Donough, of Earlville, spent Thanksgiving day with her grand mother, Mrs. Mary Cain.

Miss Lulu Archer, who is taking a combined course at Brown's business college, has been spending a few days with her parents, Mr. and Mrs. A. Archer and family, of this village.

Misses Hester Merriman and Doris Cole entertained Mrs. S. O. Argraves' Sunday school class of young ladies with a luncheon at the home of Mrs. Edna Cole on Saturday afternoon. There were eleven present, in spite of the storm.

Robert Anglemeyer was home from Chicago to spend Thanksgiving.

Fred Otterbach was home from Ft. Sheridan for Thanksgiving and also over Sunday.

Mr. and Mrs. Wm. Stainbrook dined with Mr. and Mrs. Charles Stout Monday.

Several from here enjoyed the homecoming exercises at Paw Paw Thanksgiving Day. The pleasures of the day and evening will long be remembered

by the boys in khaki. Those having the affair in hand spared no pains in arrangements and decorations both in the buildings and on the streets. The banquet hall presented a beautiful appearance in red, white and blue, with three long tables spread in snowy white with bouquets of cut flowers on each. The four-course dinner would have tempted the appetite of an epicure. The music, rendered throughout the dinner hour, was also excellent.

The Ladies' Aid of the Methodist church will hold the annual bazaar on Saturday, Dec. 6th. Dinner will be served at noon and there will be a cafeteria supper. Everyone invited.

—E. L. M.

## EAST GROVE

William Gugerty has been confined to his home with a severe attack of Sciatic Lumbago.

Most of the farmers have finished picking their corn.

Mr. and Mrs. James McBride spent Friday in Dixon.

Mrs. Homer Parson attended the Women's Foreign Missionary society in Ohio Wednesday.

Mike Clinton shelled and delivered corn to Ohio last week.

Frank Kirk has purchased a new Mo-line tractor.

The box social held at the Murphy school was well attended, the proceeds

amounting to \$65. An interesting program was given.

Mrs. William Greenback visited her grand mother at Lacon, Ill., as she was ill.

Several of our young folk attended the dance in Maytown Monday night. Charles McFadden has sold his farm and will hold a closing out sale in the near future.

Mrs. Howard is visiting with relatives in Oklahoma.

Mrs. Mary Baker is visiting with friends in Dixon this week.

George Latta returned Thursday evening from Chicago where he had been with stock.

Miss Catherine Sharkey spent Thanksgiving with her parents in Amboy.

E. D. Chandler is ill and under the doctor's care.

Louis Siegle is sporting a new Ford car.

## Prevent Spanish Influenza By Anointing Nose

Prominent Middle-West Health Official Makes Important Announcement in Connection With Treatment of Bronchial Troubles.

If you really have Spanish Influenza do not attempt self-treatment with home remedies. Go to bed immediately and call a physician at once.

But there are prophylactic measures which can prevent your being attacked by this malady. Men-Tho-Eze has proven efficacious in cases of the treatment of sore throat, la grippe, tonsillitis, bronchitis, colds and all troubles resulting from congestion of the lungs and bronchial tubes. Here is a plain statement on Spanish Influenza by the secretary of the Board of Health of a prominent middle-west state.

This physician maintains that Spanish Influenza is like sore throat, la grippe, tonsillitis, bronchitis, colds and similar troubles in that it is caused by infection of the nasal passages. He recommends preventing this—and hence largely preventing Spanish Influenza and other maladies—by keeping the nasal membranes moist and pliable by means of some oily anesthetic application.

For such treatment Men-Tho-Eze is

ideal. The goose grease and turpentine in this preparation serve as an ointment, while the wintergreen and menthol form fumes which are inhaled in to the lungs and bronchial tubes. This breaks the phlegm. The Men-Tho-Eze not only keeps the nasal membranes healthy and fit to throw off germs, but it quickly breaks up a cold which might develop into Spanish Influenza or some other serious trouble.

Men-Tho-Eze is a scientific combination of grandmother's old-fashioned goose grease and turpentine and the medical wisdom of China, which gave us wintergreen and menthol. It has proven a remarkable remedy for colds, croup and la grippe. Letters have been received from Spanish Influenza sufferers who have used Men-Tho-Eze with beneficial results.

Men-Tho-Eze should be in every home. An application in time will often save a doctor bill.

In small jars, 25c and 50c.  
For sale by all druggists. Laboratory Address: Men-Tho-Eze, Port Dodge, Ia.

Look and Feel  
Clean, Sweet and  
Fresh Every Day

Drink a glass of real hot water  
before breakfast to wash  
out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only brush the morning inside bath.

Folk who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, easy breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the poisons and indigestible waste, sour bile and poisonous toxins; thus cleansing, invigorating and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the four fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The action of people who are bothered with constipation, biliousness, nervous trouble, rheumatism; others who have yellow skins, blood disorders and starchy complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crack on the subject of internal sanitation.

**Mr. Edison Said:**

"If Period Cabinets are desired by people who are willing to pay several thousand dollars for an Edison Phonograph, why not put all Edison Phonographs into Period Cases and let everyone have the best there is in phonograph design?"

It was characteristic of Mr. Edison that he should desire that the pleasure beautiful possessions can give should not be the portion of the very rich alone, but should be the heritage as well of all lovers of art.

And now his cabinet designers HAVE encased the NEW EDISON in Period Cabinets of surpassing beauty. Sheraton, Jacobean, Chippendale, William & Mary, Heppelwhite—these and other of the world's most beautiful designs of period furniture have now been brought within reach of people of moderate income. His wish has more than been fulfilled.

**The NEW EDISON**

No Needles to Change  
Even records of all other makes sound more human when played on the New Edison

Beautiful in their proportions—of graceful lines—distinguished in their rich color of mahogany—genuine mahogany—mellowed by the tints of fine white oak—these are cabinets that will lend an added distinction to ANY HOME. Their authenticity and beauty is attested by the unqualified endorsement of Miss Elsie De Wolfe, America's foremost authority on interior decorations.

Each model has its distinct charm. ALL will interest you. ONE is exactly what you want. Come in and see it—hear it. No obligation to buy. We are happy to simply show you these beautiful Period Cabinets. So come in—TODAY.

## ANKENY FAMILY REUNION—

Mr. and Mrs. Irvin Ankeny, of Blue Earth, Minn., entertained the Ankeny family with a turkey dinner Thanksgiving Day. Those present were: Mr. and Mrs. C. B. Ankeny and sons, Harry, David, Clayton, and Frank, and daughter, Lulu; Mr. and Mrs. Harry Miller and son, Roy, and guest, Jacob Miller, of Dixon, Ill.; Mr. and Mrs. Roy Ankeny and family; Mr. and Mrs. Will Ankeny and family, all of Blue Earth, Minn.; Mr. and Mrs. Dwight Rendall and family, Mr. and Mrs. Ray Cummings and family, of Winnebago, Minn.; and Floyd Ankeny, of Muskegon, Mich. One brother, Clarence, of Aurora, Ill., was unable to be present Thanksgiving day but arrived on Sunday, making the reunion of the C. B. Ankeny family. This was the first time in about fifteen years that they have all been together. The C. B. Ankeny family is a well known one in Dixon where they have resided for many years.

## PRESBYTERIAN AUXILIARY—

The meeting of the Presbyterian Women's Auxiliary held at the home of Mrs. J. M. Tidball on Tuesday evening, December 2nd, was much enjoyed. A short business session was held, which was followed by the study of the evening. The foreign language question as relates to Christian Americanization was the topic of the evening, the different phases of the subject being interestingly discussed by Mrs. Frank Stephen, Mrs. Harry Lager, Miss Gertrude Youngman and Miss Jennie Woodburn. Mrs. Stephen spoke of the experience of other countries in regard to a common language and also of the conditions in our country relative to those not speaking English; Miss Woodburn of the foreign language press, societies and school; Miss Youngman of unity in family life and duties of citizenship; and Mrs. Lager of religious

problems. Mrs. W. C. Durkes also pleasantly read the poem, "Unguarded Gates."

Mrs. Tidball, assisted by Miss Amy Selby, Mrs. W. H. Ware and Miss Ona Woodburn, served dainty refreshments.

## PLANNED SUPPER—

A business meeting of the Golden Rule Class of St. Paul's Lutheran church, at which plans were laid for a supper to be held within two weeks at the home of Miss Marjorie Slothower, was held at the home of Miss Lulu Baughman on Monday evening. Some plans were also made for the holiday season. The hostess served refreshments during the social hour which followed.

## MINISTER'S FAMILY HERE—

Mrs. Lloyd W. Walter, wife of the new pastor of St. Paul's Lutheran church, and Rev. Mr. Walter's mother came Tuesday and are being entertained at the home of Mr. and Mrs. L. W. Newcomer. Rev. Mr. Walter and his father motored out from Chicago Wednesday afternoon.

## TO LEAVE DIXON—

Mr. and Mrs. C. E. Shepherd, who have been making their home in Dixon for the past two months, will leave soon for Independence, Mo. They have made many friends during their stay here who will regret greatly their departure.

## SUPPER POSTPONED—

The scramble supper, to have been held by the members of Dr. Lehman's Class of the Presbyterian Sunday school at the church this evening, has been postponed until further notice.

## RETURNED TO CHICAGO—

Mrs. Clara Rowe returned to Chicago yesterday afternoon after a visit since Friday at the home of her sister, Mrs. Grose.

## VISITED IN EVANSTON—

Miss Mary McCarroll and Vincent Neville returned Sunday evening from an over Thanksgiving visit with relatives and friends in Evanston.

## FROM ROCK ISLAND—

Mrs. G. C. Pearl, of Rock Island, is a guest in the home of Mr. and Mrs. L. L. Edson.

## SANDRA THE JEALOUS

By JANE PHELPS.

### "THERE IS NO POSSIBLE EXPLANATION."

#### CHAPTER CXLII

"I was just coming to look for you, Sandra!" Everett said as he stepped into the hall. Miss Pierce had evidently followed his advice and gone upstairs. "Why? Haven't I a right to be late once in a blue moon? You often keep me waiting, you know," I answered as lightly as I could. The door was open. Thomas was listening. Perhaps he knew of that trust in the library and was even now laughing in his sleeve at me—at how easily I was fooled?

Instead of going upstairs I went into the library.

"Better run up and get ready for dinner, Sandra," Everett said, glancing at the clock.

"I don't want any dinner!" I had closed the door carefully. I was absolutely reckless of what I said now.

"Don't want any dinner! Are you ill?" My appetite was unusually very good. Hence his question.

"Yes, I'm sick! Sick to death of your actions!" It was bad enough before, but when it comes to making love to a servant in your own house it is enough to sick any woman—any wife.

"What in the world are you talking about, Sandra?" he demanded, growing stern as he always did when accused.

"I am talking of you! Your actions! Because I have kept still always, or at most always, you think I shall always do so. But you are mistaken! I won't this time, I can assure you." I was trembling with anger, outraged pride, and jealousy. I tore my gloves off, threw them beside my hat on the table, and faced him: "I not only heard, but I saw you making love to Miss Pierce. Either she or I leave this house at once! At once!" I repeated, almost screaming.

"Stop!" Everett stood over me in a threatening manner his face white with anger. "Do you realize that you are insulting me as well as Miss Pierce? Evidently you were spying. For her sake I will explain. Your actions I cannot explain."

"There is no possible explanation of what I saw and heard!"

"There is, and you must listen to it," he quietly turned the key in the door. "That child might come back and know what you have thought," he said. A pitying note crept into his voice.

"I tell you I do not want to hear any explanation. I shall not believe it, so it will be useless."

"Nevertheless you shall hear. Miss Pierce has just heard of the marriage of a younger sister who remained at home and helped her stepmother (who is not domestic to keep house. They cannot afford a servant, so now have sent for Miss Pierce, telling her it is her duty to come home at once and take the sister's place. She was looking for you with the letter then I came in, and she showed it to me instead. She is terribly afraid to go, yet wants to do what is right."

"I suppose that was what she meant when she said I would never consent to let her stay?" I sneered, determined not

to be convinced. "And I suppose that was why you put your arms around her?"

"Your name wasn't mentioned, Sandra. She asked for you and when I told her you had not yet come in, she never spoke of you again. She was talking of her step-mother, whom I judge to be rather common, as well as selfish. I have advised her to remain with us, and promised to write her father that she will do so. I see no reason why she should be sacrificed to a selfish step-mother's whims, as well as we be robbed of a good nurse."

"I said nothing. I did not know whether I was convinced or not."

"You have heard all I have to say. I would suggest that you get ready for dinner." He unlocked the door just as Hetty appeared, announcing it was ready.

"I'll be down directly," I said.

"Oh, Mrs. Graham! I am so glad you have come!" it was Miss Pierce's voice arrested my attention. "I have talked it over with Mr. Graham, but I want your opinion. Will you let me come to your room a few minutes after dinner?"

"If you wish," I ungraciously replied. But she didn't seem to notice and thanked me effusively.

Tomorrow—A realization and a Plea

## PITY POOR TURK SAYS PRINCE WHO PRAISES WILSON'S PRINCIPLES

Medjid Effendi Appeals to U. S. to Ratify Treaty.

By Associated Press Leased Wire  
Constantinople, Nov. 27.—(Delayed.)—Abdul Medjid Effendi, son of former Sultan Abdul Aziz, and heir presumptive of the Ottoman throne, in an interview given The Associated Press today, expressed the hope that the United States would ratify the treaty of Versailles and made an appeal in behalf of his people.

"It is stated that the Turkish peace is being delayed because of the attitude of the United States," Abdul Medjid said. "It should be remembered that we have been warring for the last ten years. We are exhausted. Pity should be taken on us and on our homeless people who are living in the utmost misery."

### Fine Opportunity.

"It is a fine opportunity that America has to help us. It was not our fault if we got into war but because France and Great Britain sided with Russia against us. For centuries we lived on good terms with the French and the British and also we sought no quarrel with Russia."

"I warned the French and the English before the war that they were forcing us to Germany's side."

Likes Wilson Principles.

"For the sake of the whole of humanity let the United States of America continue its fight for an honest peace. The Wilsonian principles are based upon eternal peace for all the world. Let the United States, whose honor is pledged in behalf of humbler peoples continue fighting until a real, victorious peace is achieved. If the United States quits how it will mean disasters and also it may drag her into new quarrels which will cost more than the sacrifices which the present peace involved."

### In Prison 33 Years.

Prince Medjid is nearing his 50th year. For 33 years he was a prisoner under the late Sultan Abdul Hamid in a palace on the heights of Scutari, where he studied languages, politics, history, philosophy and gave part of his time to painting pictures. He has one wife and two children. He is reputed to be democratic and is studying English in the hope of traveling in Europe and America when peace is signed.

## RHEUMATISM LEAVES YOU FOREVER

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer in this vicinity that if two bottles of Allenru, the sure conqueror of rheumatism, does not stop all agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenru has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless.

Allenru relieves at once. Immediately after you start to take it the good work begins. It searches out the uric acid deposits, dissolves the secretions and drives rheumatic poison out of the body through the kidneys and bowels.

It's marvelous how quickly it acts. Blessed relief often comes in two days, and even in cases where the suffering is most painful all traces disappear in a few days.

Mr. James H. Allen, the discoverer of Allenru, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenru decisively conquers this worst of all diseases, and he has instructed your druggist to guarantee it in every instance.

## CONGRATULATIONS

## WILL SEND FAMILIES OF ANARCHISTS BACK TO RUSSIA TOGETHER

Radicals Awaiting Deportment May Take Families Along.

New York, Dec. 3.—Families of anarchists are to be deported with them to Soviet Russia, according to a telegram received today by Harry Weinberger, counsel for Alexander Berkman and Emma Goldman, from Anthony Caminetti, commissioner general of immigration.

"If you represent any alien order deported to Russia who has a family, file your application for family to accompany such alien and the same will be given consideration," the message said. "The government will deport to Soviet Russia at the earliest practicable date."

Weinberger, who has been ordered to deliver Berkman and Goldman at Ellis Island by Friday noon said that his two clients and some three score other radicals might stay at the island indefinitely unless the United States recognized Soviet Russia soon. It is his opinion that this country can deport no one to Soviet Russia without such recognition. Nearly all the radicals at Ellis Island have offered to pay their own way to Soviet Russia, according to their counsel, Isaac Shorr.

Caminetti's telegram, the attorney said, also made it clear the radicals would be delivered to Red Guard in Russia when deported, and not to the hostile White Guard.

Weinberger's renewed request for a stay of the surrender of Berkman and Goldman till Monday was refused today by the department of labor and he said they would be surrendered at the time ordered. Berkman was expected to arrive here today from Chicago with Miss Goldman following him. Weinberger said today he would institute habeas corpus proceedings in both cases immediately after they had been surrendered.

### NOT TO RETIRE.

By Associated Press Leased Wire  
Paris, Dec. 3.—(Havas).—President Raymond Poincare does not intend to retire from public life upon the conclusion of his presidential term in February, according to an article published today in the Journal.

"I do not believe I have come to the age of retirement," he is quoted as saying. "Fate has decreed that my seventh year should coincide with the greatest disturbances of history. I have acquired ideas which I will place at the service of my country as long as I keep my strength, and I confess that I do not feel at all exhausted."

## New Way to Protect Gowns Proves A Success

Cincinnati girl says  
Perspiration Weaknesses  
Can Be Cured

"The modern girl has ceased to pour water into a sieve by buying gown after gown, and ignoring modern scientific methods of curing perspiration weakness," said a young Cincinnati girl yesterday in an interview on this subject.

"Everyone knows that the 'life' of a gown is shortened when excessive perspiration of the undergarms is allowed to go on unchecked. In some cases, a dress is ruined after the first wearing."

"Now, all that extravagance is done away with because intelligent girls are using ODORONO, the toilet preparation that checks excessive perspiration and keeps the undergarms sweet and dry."

ODORONO, mentioned by this girl, is the leading toilet preparation for relief from excessive perspiration, and the sure means to perfect cleanliness. It was prepared by a physician and is endorsed by medical authorities. Be sure you get the genuine ODORONO. At all druggists and department stores. 60 cents and \$1.00. Trial size, 30 cents.

## The Best Cough Syrup is Home-made.

Here's an easy way to save \$1, and yet have the best cough remedy you ever tried.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever used it? When you do, you will understand why thousands of families, the world over, feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will quickly earn it a permanent place in your home.

Into a pint bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup to fill up the pint. Or, if desired, use clarified molasses, honey, or corn syrup instead of sugar syrup. Either way, it tastes good, never spoils, and gives you a full pint of better cough remedy than you could buy ready-made for three times its cost.

It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosen a dry, hoarse, tight cough, irritate the inflamed throat membranes, and gives almost immediate relief. Sore throat, throat tickle, hoarseness, croup, bronchitis and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments.

To avoid disappointment ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

## CORONER HELD 38 INQUESTS IN YEAR, REPORT IN

Called 8 more Times Than He Was in Year 1918.

During the year ending Dec. 1, 1919 there were thirty-eight deaths in Lee county which required investigation by a coroner's jury, according to the report of Coroner Samuel J. ### CITTON 10 CENTS A POUND.

By Associated Press Leased Wire  
New York, Dec. 3.—Another record price was established on the New York cotton exchange today when December cotton contracts sold at 40 cents a pound on continued covering at the opening of the local market. This made an advance of \$1.50 a bale over yesterday's closing quotations and an increase of approximately 12 cents a pound over the low levels of last September.

## Investigate Federal Trade Commission

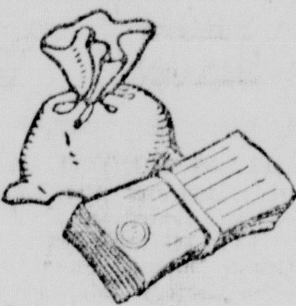

By Associated Press Leased Wire  
Washington, Dec. 3.—General investigation of the federal trade commission was ordered today by the senate. Besides inquiry into charges of Senator Watson, republican, Indiana, that the commission is a hotbed of socialism and bolshevism, the investigators will take up the commission's attitude toward business interests and its general value as a federal agency.

The inquiry will be conducted by the senate interstate commerce committee, of which Senator Cummins, republican, Iowa, is chairman. The resolution adopted originally was confined to Senator Watson's charges, but was broadened at Senator Cummins' suggestion.

### FAVOR BULL FIGHT.

By Associated Press Leased Wire

## WILL MAKE CONCRETE BLOCKS AT COLONY TO HURRY BUILDING PLANS

State Directors Here to Start Work—Will Continue all Winter.

W. J. Lindstrom, A. L. Meriam and R. Wood from the office of the state architectural department are in Dixon today, completing plans for extensive work at the Dixon State hospital to start very soon and continue through the winter. The engineers have completed plans which will furnish occupation to several men at the colony throughout the winter in the manufacture of cement blocks. It is planned to make between eighty and ninety thousand of these blocks during the winter months.

The cement block machine which has already been purchased and is on the way to Dixon is to be installed in that part of the present laundry building which is not utilized. By using this department the state will save the expense of building sheds and buildings for the work of manufacturing the blocks. Gravel for the blocks will be taken from the quarry on the colony grounds and hauled to the laundry building in army trucks that are the property of the state.

### Big Conveyor En Route

A gravel conveyor which is propelled by gasoline engine has been shipped to Dixon and is expected to be received in a few days. This will be set up in the present gravel pit, providing an endless chain of conveyors which will lead the gravel into the munition trucks. This will do a way with the heavy work of pitching the gravel from the ground into the high beds of the trucks. Two of the heavy Nash Quad, former army trucks, are now on the ground to be used in this work. Two others are to be shipped in a few days, giving four of the heavy trucks over to this work.

A large quantity of cement which was contracted for several weeks ago will be shipped through the winter, some of this now being on the way to the Dixon institution. It is the plan to have all of the cement to be used in the construction of new buildings next year on the ground before the work starts early next spring. The state also plans to have all of the cement blocks possible ready for the contractors when the work will be started. The blocks will be used in all of the buildings at the colony and are to be of a special design which has been adopted by the state architectural department. A special make of brick which has also been contracted for will be used as a facing for the buildings the plaster on the interior being placed on the cement blocks, thus doing away with the expense of lathing. Convenient air spaces between the walls of the buildings will be provided by the use of this special design of cement blocks. The brick is expected to begin arriving on the site within three or four weeks.

A. L. Meriam with the assistance of R. Wood will have charge of the cement block making at the hospital during the winter. Some of the inmate labor will be utilized to some extent, the remainder to come from Dixon. Mr. Lindstrom states that at present he is in need of carpenters, chaffeurs and an automobile mechanic as well as common labor. Any parties desirous of securing further information or to secure employment may see him at the Dixon Inn after 7 o'clock in the evening tonight and Friday.

It is the plan to start work in that part of the laundry building which is to be used for housing the cement block making machinery, just as soon as the necessary labor can be secured. The work will proceed through the winter as long as the weather will permit and will doubtless furnish employment to several Dixon men.

### ORDER GIANT TANKERS.

By Associated Press Leased Wire. New York, Dec. 3.—Two tank steamships of 20,500 deadweight tons each, which will be the largest bulk oil carriers in the world, have been ordered by the Standard Oil Co., it was made known here today. The tankers will cost approximately \$3,500,000 each and will have cargo capacity for 140,000 barrels of liquid fuel.

Other additions to the tank steamer fleet of the Standard Oil and subsidiary companies for which contracts have been placed will be five vessels of 10,000 tons and six of 7,500 tons each.

### COLORED COLONEL

GOES TO SIBERIA

By Associated Press Leased Wire. Washington, D. C., Dec. 3.—Col. Charles Young, retired, the only negro officer of the army to attain that rank, has been selected as military attaché to Siberia at the request of the African Republic. Some years ago Col. Young organized the military establishment of Siberia. He was recalled to active duty during the war and detailed to train recruits.

### TO ANNOUNCE AWARDS.

By Associated Press Leased Wire. Washington, D. C., Dec. 3.—Award of decorations to officers and enlisted men of the navy for acts of gallantry and meritorious service during the war will be announced shortly, Secretary Daniels said today. About 10 medals of honor and about 200 distinguished service medals have been awarded in addition to a large number of navy crosses, the secretary said.

### ITALIAN BUYS BINLAND.

By Associated Press Leased Wire. Springfield, O., Dec. 3.—Binland, 2:02½ trotting stallion, winner of the Transylvania stake at Lexington, has been sold by W. L. Snyder, Springfield, to A. C. Pennock, Cleveland, representing Augusto Butti, of Italy. The price was reported to be more than \$20,000. Binland will be shipped to Italy for racing purposes, it was announced.

### ROBBER KILLED.

By Associated Press Leased Wire. St. Louis, Mo., Dec. 3.—One man was killed here this morning by a policeman who caught him robbing a box car. Another was perhaps fatally wounded by robbers who were attempting to enter another box car.

**COFFEY-HARVEY**  
The marriage of Miss Jennie Frances Harvey, daughter of Mr. and Mrs. M. P. Harvey, 916 Hemlock avenue and Edward Coffey, also of Dixon, took place on Wednesday morning, Dec. 2, at 11 o'clock at St. Patrick's Catholic church. Rev. Michael Foley officiated. Miss Helen Harvey attended her sister as maid of honor and Leo Fane performed the duties of best man. The bride was becomingly gowned in Georgette crepe over brown satin and her attendant wore blue serge. A white prayerbook was carried by the bride in lieu of flowers. The wedding breakfast of three courses was served at the home of the bride's parents. Tables were prettily decorated with pink and white carnations and ferns. Twenty-five guests, relatives and intimate friends, were present.

Mr. Coffey is employed at the Dixon-ian pool hall and he and his bride will continue to live here among their many friends, making their residence for the present with the bride's parents.

**ENTERTAINED IDEAL CLUB**  
Mrs. Robert Fulton entertained the members of the Ideal club on Wednesday afternoon, with her daughter, Mrs. Walter Smith, a bride of the past few weeks, assisting. Quotations were given in response to roll call and Miss Hiller presented a number of items of current interest. The paper of the afternoon was given by Mrs. Beam on, "The Goat, Its Adaptability to America." Little known in this country, the goat, with its excellent tasting flesh, the healthful milk it furnishes, and the leather and wool to be secured from it, merits greater attention. The serving of refreshments closed a very pleasant afternoon.

**MET WITH MRS. HETTINGER**  
Mrs. Frank Hettinger's beautiful home was the meeting place on Wednesday of the Christian Aid society members, who attended largely. A scramble luncheon was enjoyed at noon and the making of the quilts and comforters was the work of the day. Plans were made for the sale of aprons to be held on Saturday, Dec. 13, in the show window of the Ferguson hardware

store, but the home baking sale, to have been held at the same time, was postponed until a later date because of sugar scarcity. The next meeting will be held in two weeks at the home of Mrs. John Fellows.

**THURSDAY READING CIRCLE**  
The beautiful historic homes of America, those of Washington, of Thomas Jefferson, and the Byrds of Virginia, and a number of others were most interestingly described in a series of articles given by members of the Thursday Reading club in the meeting of Wednesday afternoon, held at the home of Mrs. Henry Floto. Mrs. Shaver was in charge of the program. Two guests were present, Mrs. Glick, of Teal Corners, and Mrs. Arthur Floto, of North Dakota, here on a visit with relatives. Mrs. Arthur Floto and Mrs. Charles Floto each gave readings which gave a great deal of pleasure and the members also enjoyed musical numbers furnished by Miss Mary Hintz and Miss Ora Floto, as the other numbers on the program.

**ST. JAMES' AID**  
Twelve members of the St. James' Aid society met at the home of Mrs. Gartfield Topper Wednesday afternoon in a pleasant meeting. The meeting opened with the singing of a hymn and the pastor, Rev. S. A. Zimbeck, read from the scriptures and offered prayer. It was decided to have a program at the next meeting, with several of the members contributing numbers. Refreshments were served by the hostess at the meeting's close.

**M. E. AID SECTION MET**  
Members of Section 4 of the M. E. Aid society held a very busy meeting on Wednesday afternoon at the home of Mrs. L. B. Neighbor. Breakfast caps and clothespin bags were made and sold as soon as made. As the members sewed they indulged in delicious assorted mints, provided by the hostess. A scramble dinner will be held at the home of Mrs. A. N. Richardson at the next meeting.

**RETURNED TO DIXON**  
Mrs. N. M. Sift, little daughter, Madeline Rachel, and two nieces, Misses Rachel and Rosalind Knapp have returned from a several days' visit with relatives in Chicago. Mr. and Mrs. Sift, formerly of Chicago, are now making their home in Dixon.

**LEE CENTER DANCE**  
The L. O. O. F. lodge of Lee Center, gives the series of dancing

parties being given this season at the L. O. O. F. hall there tonight. Past affairs have been very enjoyable and this promises to be equally so.

**DIXON WOMAN'S CLUB**  
The Dixon Woman's club will hold its regular meeting at the home of Mrs. A. L. Kaylor, 807 West Second street, instead of at the city hall, Saturday, Dec. 5th. A board meeting will be held at 2:15 o'clock and the program, following, will be in charge of the House- hold Economics Department. Mr. Starfish, of the Dixon High school, will be the speaker of the afternoon. As this is to be guest day, members are urged to be present and to each bring a friend. The hostesses will be Mesdames Baird, Ransom, Herrick, and Shaver.

**U AND I CLUB MEETING**  
A pleasant social meeting of the U. and I. club was held Wednesday afternoon at the home of Mrs. Ditzler, the members enjoying greatly the entertainment offered and the dainty collation served by the hostess. The next meeting will be held with Mrs. Schultz on Dec. 18th.

**HARMON BAZAAR**  
The Lutheran Ladies' Aid society, of Harmon, will hold a bazaar Saturday afternoon and evening at the George Ross home, beginning at 1:30 p. m. Supper will be served in the evening.

**O. E. S. ELECTION**  
A regular meeting of Dorothy Chapter, Order of Eastern Star, will be held on Friday evening at Masonic hall. The annual election of officers will be held.

**GUEST FROM NELSON**

## New IDEAL-Arcola Radiator-Boiler

A house or a flat is sadly handicapped now—a-days unless it is comforted cheerily throughout with this IDEAL Radiator heating outfit.

The only way to change a house or a flat into a genial, cozy, healthful, cleanly HOME, making every nook and corner warm and the floors and halls free from chill spots and drafts is with this wonderful new invention—the IDEAL-Arcola Radiator-Boiler.

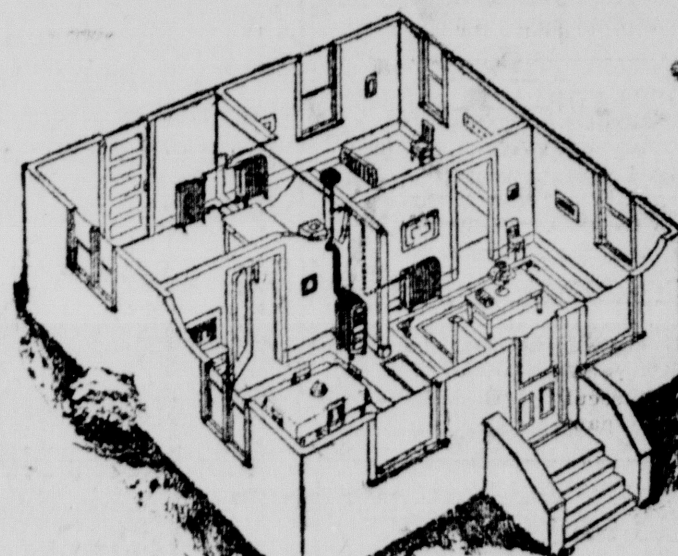

### The IDEAL bargain in low-cost heating!

The IDEAL-Arcola takes the place of a parlor-stove, radiating its soft, June-like warmth to the room. The IDEAL-Arcola is hollow-walled, the space being filled with water, which as it is heated circulates over and over, constantly, through piping to AMERICAN Radiators set in adjoining rooms. ALL the rooms are therefore warmed ideally and from the one fire. There is no coal-waste!

### Gives utmost comfort and coal saving

No cellar is needed. Everything is on one floor. If there are two or more tenants in the building, each can have his own Arcola and make the temperature to suit his own needs—can make his own climate. If you do not wish at first to heat all the rooms, buy a small size IDEAL-Arcola and one or two radiators, and later on buy extra sections for the IDEAL-Arcola and two or three more radiators to warm more rooms.

Catalog showing open views of houses, individual flats, stores, offices, etc., with the IDEAL-Arcola Boiler in position will be mailed (free). Give your home and your annual coal-fund a square deal—write today

#### THE REDEEMING BABY CARRIAGE

Now when courts are criss-crossing  
one another in regard to war-time pro-  
hibition, not many people are doubt-  
ing that the nation is to be legally dry  
commencing January 16 next, and that  
it is to be gone dry to stay dry. There-  
fore it behooves every one to have in  
mind what is the best substitute for  
booze. Melville K. Bailey gives the an-  
swer.

What is his best substitute for alco-  
hol? The passion of paternity. What is  
his best substitute for the saloon? The  
baby carriage.

The Rev. Mr. Bailey presides over the  
Holy Spirit Mission down in the Bronx  
in New York—the Bronx, famous as the  
reputed source of the erstwhile popular  
cocktail. Mr. Bailey rhapsodizes thus:

"Baby carriages abound. Single-  
cruisers coast along the shores of re-  
mote blocks; squadrons are conveyed by  
attentive mothers about the two-family  
houses, and whole fleets manoeuvre or  
come to anchor in front of the apart-  
ment houses.

"This indicates the passion of pater-  
nity as well as maternity; and where  
the passion of paternity is thoroughly  
aroused it dominates a man's whole en-  
ergy. It drives him to the greatest ef-  
forts to succeed in labor or business, it  
impels him to co-operate with his wife  
in making the home a handsome and or-  
derly abode, and it kindles in his heart  
a sort of barbaric pride in the young  
kid that is being wheeled about in the  
baby carriage.

"He may not wheel the baby carriage  
himself. That is incidental. But he  
may. It is no uncommon thing to see  
at the end of the working day the father  
as well as the mother attending the  
chariot, or seated with a protecting air  
somewhere in the vicinity. The father  
may not be a total abstainer, and he  
may play pool, but the really grand pas-  
sion of paternity has taken the place in  
his mind which in some men's minds,  
and perhaps once in his own, was held  
by that complexus of social and phys-  
ical enjoyment which is called the sa-  
loon.

"And that is what I mean when I say  
that it seems to me that the nation-  
wide campaign can find no better substi-  
tute for the saloon than the baby car-  
riage."

Alcohol is said to have inspired much  
eloquence, but here is eloquence with-  
out alcohol, in spite of alcohol, and in  
calm contempt of alcohol. And who  
shall gainsay the argument.

The natural and instinctive transition  
from barrooms to baby buggies can be  
seen not only in the Bronx, but in any  
other newly dry community in America.  
With joy-drinks banned, hosts of men  
have discovered the compensating joys  
of sober parenthood.

#### GOVERNOR ASKS PEOPLE OF ILL. CONSERVE COAL

Issued Proclamation  
Wednesday Urging  
Cooperation.

Governor Frank O. Lowden yesterday  
afternoon issued the following procla-  
mation, calling upon the people of Il-  
linois to conserve coal:

The coal situation in Illinois and  
the country at large is serious in  
the extreme. The supply of coal is  
very limited, no relief is in sight,  
and a possible coal famine is at  
hand. Only by the most sparing  
use of coal will it be possible to con-  
serve what will be required for ab-  
solutely necessary purposes. The  
public utilities commission has to-  
day issued an order, in substance as  
follows:

The commission ordered all public  
utilities subject to its jurisdiction to  
immediately cease furnishing ser-  
vice for all unnecessary interior and  
exterior illumination, including  
signs, display lights, and show win-  
dows; to permit service to shops, in-  
dustries, business establishments,  
and warehouses (except cold stor-  
age) for but six and one-half hours  
per day; provided, where there is  
continuous operation such service  
must be discontinued for two work-  
ing days each week; to permit ser-  
vice to retail stores in the central  
district of Chicago from 11 o'clock  
a. m. to 5 o'clock p. m. only, and in  
the outlying districts from 10 o'-  
clock a. m. to 6 o'clock p. m., and  
until 9 o'clock p. m. on Saturdays;  
to permit service to offices, banks,  
and other places of business, in-  
cluding office buildings, from 9 o'-  
clock a. m. to 3:30 o'clock p. m.  
each day; to permit service to the-  
atres and similar places of amuse-  
ment for six performances each  
week, one in the afternoon and five  
in the evening, without restriction  
upon motion picture houses.

I urge upon all consumers of coal  
whether they come under the juris-  
diction of the public utilities com-  
mission or not, to follow rigidly the  
provisions of this order. I also  
urge upon all users of coal, whether  
for industrial, commercial, or do-  
mestic purposes, to conserve with  
the utmost care their present sup-  
plies. Only by following strictly  
these rules will we be able to avert  
possible disaster. This appeal is not  
only to citizens and business inter-  
ests of Chicago, but to those of the  
entire state, and I earnestly call up-  
on them to observe it.

It is unfortunate that unrest and fuel famine should come and es-  
pecially so at Christmas time. Nevertheless, the Holidays should be ob-  
served because the spirit of home, religion and good will, of which Chris-

their cultivation is most needed in times of stress. This feeling is ex-

## THE STATE COAL SAVING ORDER

**Utilities Commission Issues Rules Which Clamp Lid on Non-Essential Industries and Cut Working Hours of All Concerns.**

The Public Utilities Commission of the State of Illinois late Wednesday afternoon issued the following order to all utilities companies in the state, including the Illinois Northern Utilities Co. of this city, fixing a six and one-half hour workday for essential industries, and other drastic rules for coal saving:

It is therefore ordered that said public utilities, until the further order of the commission, shall govern themselves, in furnishing and supplying their service, by the following rules and regulations, and shall enforce the same in their dealings with their customers:

### Electric Lighting.

All unnecessary interior and exterior illumination, including signs, display lights, and show windows, shall be entirely stopped.

### Transportation.

Suburban and local transportation schedules shall be reduced immediately to the least number of runs that will accommodate necessary travel requirements. As every 10 degrees by which the temperature is lowered during zero weather on surface and elevated cars will save between 250 and 400 tons of coal per day, the temperature of cars and stations at all times should be reduced to the lowest point consistent with public health and safety.

### Industries.

Work shops, industrial establishments, wholesale businesses, mercantile establishments and storage warehouses (cold storage warehouses and plants excepted), shall receive service not to exceed six and one-half working hours of the day between the hours of 9 a. m. and 3:30 p. m. Where the nature of the business requires continuous operation an equivalent reduction must be accomplished by refusing service at least two working days a week.

### Retail Stores.

Retail establishments of all kinds in the downtown district shall receive service not to exceed six and one-half hours a day, namely from 11 a. m. to 5:30 p. m.; the stores in the outlying districts may receive service from ten a. m. to 6 p. m. and on Saturday night, until 9 o'clock p. m.

### Offices, Banks.

Offices, banks, and other places of business—all office buildings included—shall receive service from 9 a. m. to 3:30 p. m. only. Every possible economy in light, heat and power, including reduction in elevator service, must be effected within these hours, and the heating during closed hours be reduced to the lowest margin of safety. Newspapers shall exercise every economy consistent with the nature of the business and the publication of their papers.

In all buildings of whatever character, including factories and stores, referred to above, service lighting shall be reduced to a minimum, elevator service outside of the hours specified for operation shall be reduced to one car and heat must be cut off except in such degree as will prevent damage by freezing.

### Theaters, Amusements.

Theaters, vaudeville houses, and sim-

## AMUSEMENTS

### FAMOUS MINSTRELS TONIGHT.

Probably certain people have forgotten that they are minstrel fans because it has been so long since they have had an opportunity to see a really first class minstrel aggregation. However, the minstrel microbe will get them when the Harvey Greater Minstrels make their flashy dress parade over our main streets, announcing their appearance at the opera house tonight.

The creating of laughter, the rendering of tuneful music, charming songs, comical stunts and curious novelties, constitute the purpose of the minstrel. For this reason, time and again in the professional papers the performers and others engaged in the legitimate amusement business have been assured by the Government that amusements of this character are not considered non-essential. No wonder in these strenuous times the demand for the minstrel is increasing until it is impossible for the management of a first class company like the Harvey Greater Minstrels to fill one-half of the dates offered to them. People want to laugh, they want to be entertained and thus their nervous systems are better tuned to the times.

With the Harvey Greater Minstrels are associated some fifty people all constituting the very cream of the negro profession, and after all the negro is the natural musician and minstrel of the human race and during the engagement here they will bring some more of their pleasing surprises.

## Ex-Kaiser's Interest is Still in Military

By Associated Press Leased Wire

London, Dec. 4.—Former Emperor William of Germany does not believe he will be brought to trial by the allies, or if tried, that his future will be affected in any way, says the Berlin correspondent of the Daily Mail. Various friends

sources have recently suggested that he surrender to the allies, offering to give the court all information in his power, the correspondent says, but he appears too lethargic to take any steps or even concentrate his mind upon the preparation of notes.

Next to saving wood, the erstwhile monarch's main interest seems to be the various campaigns waged in Russia which he follows with the aid of large beflagged maps.

## UNTIL FURTHER NOTICE

THE NEW STORE HOURS WILL BE IN FORCE IN OUR STORE

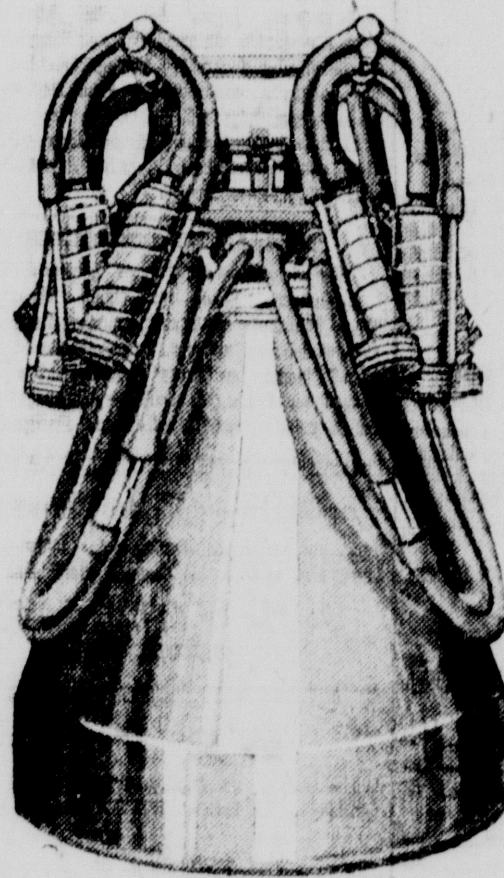

We ask for the co-operation of the public in the matter of shortened business hours made necessary by the coal situation. The shortening of the business hours to this extent cuts off approximately eight business days between now and Christmas.

You'll find this store alert to supply you with cold weather apparel and Christmas remembrances. We will endeavor to maintain a sufficient sale force to take care of your needs promptly so that your shopping time may be conserved.

This change in the hours open to serve you emphasizes the need of early Christmas buying—make your holiday selections now if possible—have your purchases "laid aside" until later if you wish.

The Perfection is the Only  
Milker with the Downward Squeeze Like  
the Calf

## See Me About THE PERFECTION MILKER

The acceptance of the agency for the Perfection Milker was the best thing ever I did—not only for myself but for you dairymen who are up against the wall for milking help. I have been studying and investigating the various milking machines now on the market for a long time because I wanted the one milker that was "right" in every way. The Perfection Milker is the one "right" machine. It milks like the calf—with first, a gentle suction, then a DOWNWARD squeeze followed by a complete release from suction. The length of suction, short or long squeeze can be instantly adjusted to suit the individual needs of each cow.

### An End to the Hired Help Worries

The scarcity of hired help, with wages going up and up, makes the dairy business somewhat of a problem. If it's a capable, trustworthy milker you are looking for, you couldn't do better than to hire Perfection. One man with the Perfection Milker takes the place of three hand milkers. The saving in wages alone pays for the Perfection in six months' time. Then there's the big item of time. One man and the Perfection can milk twenty-four cows in an hour—just one-third the time spent in hand milking.

### See The Perfection at Work

The Perfection is the milker that I'm proud to sell. You will be proud when you own one. There are thousands of Perfections in use. Let me tell you how they have saved time and labor as well as wages for others and how the Perfection can help you. Just telephone me or stop in at my place and I will be glad to explain the Perfection and give you a practical demonstration any time you say.

## Corn Higher Today on Board; Hogs Decline

(By Associated Press Leased Wire)

Chicago, Ill., Dec. 4.—Absence of selling pressure led to an upturn today in the price of corn. A forecast of unsettled weather tended somewhat to strengthen the market, and so too did former foreign exchange. On the other hand, hog quotations were lower and receipts of corn here were larger than has been the rule of late. Opening prices, which ranged from 1/4¢ off to a 1/2¢ advance, with December 1.39 1/4 to 1.39 1/2 and May 1.33 to 1.33 1/2, were followed by material gains all around and then something of a sag.

Oats were governed by fluctuations in corn values. After opening 1/4¢ decline to 1/4¢ advance, including May at 78 1/2 to 79 1/4, the market scored a moderate general upturn. Provisions tended upward despite weakness in the hog market. It was pointed out that supplies of meat might be curtailed by coal shortage hampering the packing houses. Assumptions that the coal strike might be settled in the immediate future brought about a sharp setback later. Bears made much, too, of gossip that export sales of grain were being cancelled. The market, however, soon rallied. Prices closed unsettled, at 1/4¢ net lower to 1 1/2¢ advance, with December 1.39 1/4 to 1.41 1/4 and May 1.34 to 1.34 1/2.

## Indicted Michigan Republicans in Club

(By Associated Press Leased Wire)

Grand Rapids, Mich., Dec. 4.—Political workers and others indicted by the federal grand jury in connection with the election of Truman H. Newberry, United States senator from Michigan, continued to appear in federal court today for arraignment. Nearly a hundred of the 135 indicted have either been arraigned or are here awaiting arraignment.

Out of the gathering of Michigan republicans here for that purpose has grown an indicted men's club. State Representative George W. Welsh, of Grand Rapids, is sponsor for the organization. It is to be known as the "135 Republican Club." Large blue buttons are to be worn by the members. White lettering proclaiming: "I helped keep Henry Ford out of the United States senate."

## Galesburg Assembly Urges State to Act

(By Associated Press Leased Wire)

Galesburg, Ill., Dec. 4.—The Galesburg Trades assembly, in regular session last night, unanimously voted to telegraph to Gov. Lowden asking him to use his influence toward having the government take over and operate the coal mines, stating that it was the opinion of the assembly that should such action be taken the present acute situation would be relieved, for the government would be in a position to handle the matter from a practical standpoint doing justice to every one concerned.

## Where, Where Has My Little Dog Gone?

If you've a dog you think a lot of you had better keep him at home, and if you've a dog that fails to return home after he has gone out for a walk don't take it too seriously, for many others have missed their pet canines in a like manner.

Chief Van Bibber has received some reports about dogs that have never returned home and the head of the department started an investigation. This showed that some of the dogs that had not returned home, had been shipped by express to a small town in Iowa. After tracing the movements of some of the missing pets, the chief started out on another angle. In perusing the advertising columns of a fanciers' publication, the chief discovered the address of the party in the small Iowa town, where the Dixon canines had been shipped. The party advertised a large kennel of various breeds of dogs which will be shipped on receipt of the order accompanied by the price. Doubtless the small Iowa town has served as a clearing house for more than one dog which formerly resided at Dixon.

Aside from learning the destination of local dogs, the chief has reasons to believe that he can now go to the home of the local agent for the Iowa kennels, which is so situated that he can operate very successfully. He was not quite secretive enough in his movements and for this reason the dog clearing house has been uncovered following police investigation.

## Made Raisin Wine to Bathe Sick Child; is Given Jail Sentence

(By Associated Press Leased Wire)

Indianapolis, Ind., Dec. 4.—Frank Milosich, of Gary, Ind., told Judge A. E. Anderson in United States district court here yesterday that he had made 300 gallons of raisin wine because it was necessary to bathe his sick child each night in two gallons of alcohol. Milosich was in court to face a charge of having an illicit still in his home, along with a big supply of wine.

The judge, however, was not convinced. Calculations made by Judge Anderson and the district attorney showed that the wine was worth \$30 a gallon and that, therefore, it cost Milosich \$60 a day to care for his sick child. After fining Milosich \$600 and costs in all and sentencing him to serve six months in jail, Judge Anderson remarked:

## Chicago Will Build World's Best Stadium

(By Associated Press Leased Wire)

Chicago, Dec. 4.—Plans for the Chicago Stadium to be the largest open-air gathering place in the world, were announced today with awards of prizes for plans.

The structure is to be horse-shoe shaped, of concrete and marble, with a seating capacity of 100,000, according to the plan. It is estimated it will cost at least \$1,725,000.

There will be a temporary stage for spectacular events. The stadium will be so arranged that in winter a space 1,900 feet by 500 feet, can be covered by the stage.

One reason for leaving one end open is that it may be used as a reviewing stand for parades.

Just when work on the stadium will be started has not been decided.

## DOESN'T WANT NEGRO TROOPS

(By Associated Press Leased Wire)

Oklahoma City, Okla., Dec. 4.—Governor J. B. A. Robertson today cancelled his request for troops to protect mine properties when he learned that two companies of negro infantrymen were to be sent to the state from Columbia, N. M. In a message to Maj. Gen. Joseph Dickman, commander of the Southern Division of the army at San Antonio, Texas, Gov. Robertson declared these troops would only involve us in unnecessary conflict and confusion, and for mally withdrew his request.

Mrs. Sanford will have a fancy work sale consisting of dollies, luncheon cloths, and centerpieces Dec. 4, 5 and 6 at Bert Smice's plumbing shop. 28213
